Tags: [dock](#) [charging](#) [philips](#) [shaving](#) [shaver](#)

this is a simple charging stand for the Philips 3000 series electric shavers. Some come with a proper stand, mine didn't tho, so I made one ;)

Materials:

- Original Philips charging cable
- hot glue (glue cable and pins to outer shell, I know, a little jank, but hey this is a quick fix...)
- **Bonus:** Rubber base (trace the inner and outer contour on a rubber mat and hot glue it to the bottom indent.

Printing:

- 1x Philips base R (vertical with supports on the printed piece)
- 1x Philips base L (vertical with supports on the printed piece)
- 2x Pin

Feel free to post a make (if anyone sees this) and share!

Happy printing!
