UPDATE JUNE 2023 \*

The first file I uploaded had no overhand (anti spill) on it. This has now been changed, Please see updated file.

Anti-spill cat or dog feeder. I guess you could use it for water (if printed with PETG etc.) however I've not tried this. Recommended settings of 3+ walls, 20-40% infill, PLA. Raft beneficial if you've don't get good adhesion, however not mandatory. Supports required for overhand. 170mm at the base x 70mm H. Rescale to suit bigger / smaller animals. Photo shows original design. 3 years old, sorry for the poor photo!
