Summary

Yet another fantastic magnetic fidget toy.

[Toys & Games](#) > [Other Toys & Games](#)

This is another fantastic fidget toy like the square <https://www.printables.com/model/254679> one. It has 2x7 Magnets inprinted and can slide back and forth. You need to add a pause in Prusaslicer on the layer that encases the magnets. For one set you need 2x7 magnets (axial magnetic) with size 6x3 mm (<https://amzn.to/3QqWIZH>).

Make sure you place them all with the N up in one and S up in the other fidget!
