### Summary

I didn't find a slide case for the arduino mega/ramps with mounting holes so I decided to make my own :) and it fits...

---

I didn't find a slide case for the arduino mega/ramps with mounting holes so I decided to make my own :)

and it fits perfectly - no need of screws or anything else.

I will mount it on the outside of the 3d printer enclosure and simply slide the ramps in :) very easy and handy.

Printend with PLA at 0.2 with 30% infill

### Print instructions Category: 3D Printer Parts Summary

I didn't find a slide case for the arduino mega/ramps with mounting holes so I decided to make my own :)

and it fits perfectly - no need of screws or anything else.

I will mount it on the outside of the 3d printer enclosure and simply slide the ramps in :) very easy and handy.
