### Summary

Surprise your furry friend with this adorable dog tag featuring the LY -love you- initials on the front.

[Household](#) > [Pets](#)Tags: [dog](#) [tag](#) [keychain](#) [baby](#) [beanie](#) [ty](#)

You have the option to print the dog tag either in a single piece or in two separate pieces. With the MMU2S, AMS, or Palette, you can customize the tag's different components - the base, letters, and ring - by painting them to your preference.

Alternatively, you may choose to print the tag in parts. In this case, you can print the base and make a color change for the letters. Afterward, you can print the ring separately.
