Summary

A 2x2 bit storage unit for the Gridfinity storage system

A smaller version of my #Gridfinity hex bit storage tray. I specifically designed this one for my hex drill bits (the shank is hex not the bit, although that would make for a cool drill ...) and small hex bits for my day-to-day jobs. Stores 14 drill bits (longer shanks) and 14 driver bits, for a total of ... carry the 4, add the ten ... 28 bits!
