updated 6. 4. 2023 | published 6. 4. 2023

### Summary

Remixed from Norkkon. He provided a 48 count. By request I created a 30 count and a 60 count.

---

[Household](#) > [Other House Equipment](#)

---

I have also included the STEP files for all 3 sizes.

How I Designed This:

The original STL was converted back to a solid model in Inventor. I sectioned the model. Then copied and moved the sections around as needed. Finally all sections were joined back together into a single solid.

### This remix is based on

AA Battery  
CR123 Cases  
9v, AAA,  
AA  
Costco  
Battery  
Cases  
9v, AAA,
