updated 6. 4. 2023 | published 6. 4. 2023

Summary

Deleting the STAR from the original design (many thanks to 'gravity') and print it without top and bottom layers.

When using the STL file with your slicer, in the 'Print Setting/Horizontal shells' tab, set the top and bottom layers to 0. You can also change the 'Infill/Fill pattern' to your choice (except Concentric that will not really protect your phone).

The gcode file is set for the honeycomb model (see photo).
