This is a replacement for the seat springs in a John Deere compact utility tractor, p/n M146683:

<https://partscatalog.deere.com/jdrc/search/type/parts/term/M146683>

I have a model 2210 tractor, but this part is also used on many other John Deere tractors, listed in the link above.

This spring is quite stiff; I may do a remix with thinner walls for a little more give.

Print Settings

Printer Brand:

Anet

Printer:

A8

Rafts:

No

Supports:

No

Resolution:

0.2 - 0.24

Infill:

20-25%

Filament: Inland TPU Black

Notes:

You'll need to squeeze the part to get it into the bracket, but once it, it'll stay put.
