Tags: [thingiverse](#)

This was inspired by <https://www.thingiverse.com/thing:1027744>

This is designed for the mirror shown in the photo and available here:  
<https://www.amazon.com/gp/product/B000RZQI68/>

If you don't use this mirror, you may have to use a different approach to attach the mirrors other than the clips used in this design.

The end pieces are a tight fit for 2" PVC pipe, so some sanding may be necessary.

UPDATE 6/29/18: I designed a different, more secure clip for the mirror. See the photo. This will only work with the acrylic mirror specified.

## Print Settings

### Printer Brand:

Prusa

**Printer:**

Prusa Clone

**Rafts:**

No

**Supports:**

No

**Resolution:**

0.2mm

**Infill:**

20%

**Notes:**

No supports needed. I set my hot end at 205C and the print speed at 40 mm/S on my ANET A8. Printed in PLA

Category: Toys & Games
