### Summary

This is a medium sized bin meant to hang from the Omniwall organization panels.

---

This is a medium sized hanging bin meant to be used on the Omniwall organization system. I remixed this model from David Warboss' [collection](#).

This size bin will hang right next to another one with no wasted space on the omniwall panel.

Omniwall consists of vertical and horizontal slots as well as standard sized and spaced pegboard holes. I plan to create a collection of the printed organization solutions I model and print. If you have any requests or improvements please let me know!

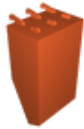

### This remix is based on

## Pegboard system hangers
