v.2

- Updated list of adventurers (english and polish)
- Just found I didn't include 4 adventurers form The Cataclysm expansion. I will try to think how to include them in next update.

English version

I made organizer for miniatures from Talisman 4 Ed with most officials (except The Cataclysm) expansions. Every single figure was measured and that is why order of figures must be exactly as in description. Organizer fits in Forest expansion box. I use 2x3 mm magnets to hold pieces together, but it isn't necessary.

Unfortunately I was able to fit only 2 frogs into box.

- If some holes are too small try changing flow rate in your slicer to 92-95%
- Most holes where made for figures to stand in front of each other but if can't fit one or it doesn't hold well try to rotate figure. Bases are very uneven and more of shape of eclipse then circle.
- Because Dragon Rider is higher the box of Forest Expansion I designed some column to protect it (I added more after making my own version seen on photo).

I use Polish version of Talisman and don't know if figures all over the world where manufactured in same factory and have same bases. Let me know if you print this project and if everything fits correctly.

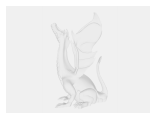

Because I use Polish version some names of adventurers may be different from yours (I just translated them without checking original names)
