Based off @scheff's gridfinity blanks: <https://www.printables.com/model/374789-gridfinity-collection-solid-bins-for-customization>

I couldn't find an existing socket set that fit what I wanted. Fits SAE 5/32" through 1/2", and metric 4mm through 13mm. Two slots for 11, 12, 13mm and three slots for 10mm. Coupler, adapters and extender included.

3x5 grid size. I printed this in PETG because it'll be in a garage without climate control. 3 wall layers and 10% infill with a .6 nozzle.
