updated 7. 4. 2023 | published 7. 4. 2023

Summary

Remixed the design from @Miso89 to have the cable port perpendicular to the cradle instead of parallel.

Remixed the design from @Miso89 to have the cable port perpendicular to the cradle instead of parallel. I also reoriented the STL to have the top facing down to minimize supports and allow you to use textured PEI to get a textured top surface. I used supports from the build plate although you may not need to in this orientation.

This remix is based on
