Summary

There must be cake.

[Household](#) > [Home Decor](#)

Tags: [portal](#) [emergency](#) [bookend](#) [exit](#)

You need:

- 1 Bookend with 0,2mm layers, orientation as in real life (sorry, I can't rotate the STL)
- 1 Sign. Change Color after 1mm with 0,2mm layers, flat on print surface

Print with 15% infill and stick the parts together. Designed with appropriate space for PETG between the parts.

This remix is based on

Portal
Bookend **Portal Bookend**
