Expanding on my previous storage wall, <https://www.prusaprinters.org/prints/7643-various-size-stackable-resistor-storage-box>

, I am creating a dedicated thing for paint storage. I have three types of paint, Vallejo Model Air 17ml, Testors Enamel 7.4ml, and US Art Supply ~30ml.

I wanted to create a system that is neat and takes up as little horizontal space on my desk. Thus I created this system to allow me to organize and see what I have at a glance.

I am always open to ideas and other paint sizes. Let me know in the comments if you have a specific paint in mind or on-hand as well as dimensions of the bottle and I can generate a storage box for the wall.

I enjoy seeing your makes, please keep them coming!

I do this for fun and no support is required. However, if you want to donate use my PayPal linked through Thingiverse or use an amazon affiliate link:
