Filameno is the official mascot of Spanish company
www.Impresoras3D.com

There are single extrusion and dual/multi extrusion versions available. Also, each one of the versions has 9 different facial expressions. It's the perfect model to test your dual extrusion 3D printer or flexible materials.

All the models have a high-density mesh, which allows you to scale the model while keeping the same surface quality.

This design was made in Autodesk Fusion 360. Want to download the source file and make your own version? You can find it in the Patreon page linked above (Tier 3).
