### Summary

Adapter to mount an SKR Mini E3 V3 board in place of the factory board.

[3D Printers](#) > [3D Printers - Upgrades](#)

Basically an adapter board to fit an SKR Mini E3 V3 in a CR10s Pro using the original mounting points. Had I not already pulled my CR10s Pro apart, I would have re-printed to better align the USB port, but ended up just drilling a hole and giving it a splash of matt black paint.
