updated 7. 4. 2023 | published 7. 4. 2023

### Summary

Modified version of the Bambu Lab Reusable Spool that fits Inland (aka Microcenter) spoolless filament

[3D Printers](#) > [Accessories](#)

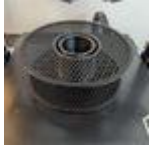

Tags: [spool](#) [masterspool](#) [reusable](#) [inland](#) [bambu](#)  
[bambulab](#)

Fits Inland spoolless filament snugly without slipping. Width has also been adjusted to match inland sizes

This is the version with the locking mechanism that works in Bambu AMS without unraveling

I printed it with 0.2mm layer height, no supports using PLA+
