updated 7. 4. 2023 | published 7. 4. 2023

Summary

I made this post cover to make it clean because older ones were broken or yellowed by the sun.

Tags: [cover](#) [post](#) [postcover](#) [deckpostcap](#)

I recommend printing in petg or heat/sun resistant plastic since it will be outside on the deck and may be subject to deformation and heat. The two parts just hold together with small tabs and no glue or screw required.
