Summary

Remix of the Crystal Egg adding threads to use as an Easter egg

[Household](#) > [Home Decor](#)

Tags: [easter](#) [easteregg](#) [egg](#) [threaded](#) [nesting](#)

Remix of WF3D's Crystal egg adding threads to make it into an Easter egg.

There are 2 sizes 100mm and 65mm tall. The smaller egg is designed to fit inside the larger egg like a nesting doll.

Print the way the files are oriented, no supports needed. The threads might need a bit of clean up depending on your print settings.

I printed at .2 layer height with either 0 or 15% infill either .4 or .6 layer width.

Enjoy and Happy Easter!
