Babboe Bakfiets Wall Charging Mount

A wall mounted mount to hold your battery while charging.

You will need to remove the four torx screws on the bottom of your battery, and place the charger inside the wall mount before replacing the torx screws.

Should fit the following bikes

Big-E, City-E, Curve-E, Mini-E, Carve-E, Go-E, Flow-E

I printed this with 4 walls and 50% infill, it took best part of 20 hours to print.

Check out my other designs, including some lights for the Babboe E-Curve

STEP File Included

I have included the STEP file so you can modify the design to your hearts content.

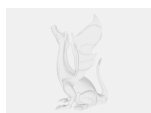

Feedback and Makes

It really makes a difference and feels great when you leave a comment, like, or collect things for the people who post them, so please do that for all people as it builds community. Super important in these Covid Times. Even if you do not post things you are still part of the community (in fact you are the majority of the community), so please like, collect and comment!

Please do this for all stuff you download from everybody!
