A childrens shovel for sand pits / beach.

My child went to a local park where somebody had a sea horse shovel. He immediately wanted it and got very upset when he had to give it back to the child's owner, so I made him his own.

Printing

Print laying flat on the bed with no supports. The underside of the shovel comes out a little messy due to steep overhangs, but fine for a childrens toy.

The model has a flaw and at one stage the infill does not print in the handle, however my printer bridges over the gap without any issues. (Ender 3).

Feedback and Makes

I really like getting feedback and despite having thousands of downloads I have only 1 comment and 0 makes!

It really makes a difference and feels great when you leave a comment, like, or collect things to the people who post them, so Please do that for all people as it builds community. Super important in these Covid Times. Even if you do not post things you are still part of the community (in fact you are the majority of the community), so please like, collect and comment!

Please do this for all stuff you download from everybody!

Print Settings

Printer Brand:
