Another tool holder.

Added some extra holes for scissors and nozzle cleaners ect.

Added front container for holding screws and crap you don't want to lose when fixing your latest effing printer issue or upgrading something that completely does not need upgrading.

Shameless Self Plug:

Feedback and Makes

I really like getting feedback and despite having thousands of downloads I have only 1 comment and 0 makes!

It really makes a difference and feels great when you leave a comment, like, or collect things to the people who post them, so Please do that for all people as it builds community. Super important in these Covid Times. Even if you do not post things you are still part of the community (in fact you are the majority of the community), so please like, collect and comment!

Please do this for all stuff you download from everybody!
