Very simple light, no gluing, screwing, unscrewing wiring or soldering required.

Purchase lamp from Amazon.de

through the hole in the head and clamp the cable in the bottom for an instant and unique table lamp.

I used 5% infill in my prototype (pictured) but I think 15 + would be better.

Feedback and Makes

I really like getting feedback and despite having thousands of downloads I have only 1 comment and 0 makes!

It really makes a difference and feels great when you leave a comment, like, or collect things to the people who post them, so Please do that for all people as it builds community. Super important in these Covid Times. Even if you do not post things you are still part of the community (in fact you are the majority of the community), so please like, collect and comment!

Please do this for all stuff you download from everybody!
