## Summary

This is a cover for that ugly QR code on the extruder of the Ender 3.

This is an old project, but some may find it useful.  
A cover for that ugly QR code that's on the extruder of the Ender 3 printer.

There's a cutout for the extruder cable, and a holder for the Hotend/ Extruder wiring (if unwanted, can be snapped off with scissors or Stanley knife) that you can have vertical (mk1.3) or horizontal (mk1.4), this last one it slightl deeper too.

Now been made 0.4mm bigger in size and slightly deeper, to fit the standard Creality 42-40 stepped motor.

Print at slow speed and hot nozzle/bed on the first layer for better quality, as it will always be in plain sight ;-)

## Print Settings

### Printer Brand:

Creality

**Printer:**

Ender 3

**Rafts:**

Doesn't Matter

**Supports:**

Doesn't Matter

Category: 3D Printer Extruders
