A simple add-on for my wristband designed together with MaryGold. What you need is some leather, a tiny bit of Velcro fastener and some knobs, a few press-studs and the pliers to press them together.

Of course strings!

Print it with a SLA printer. Clean and UV. Take care (as always).

I used "Rub 'n buff" for the highlights and in the end varnish spray to protect your new jewellery.

No licence. Do whatever you want with it.

Remixes great!

DIY or DIE! Cheers
