Hello!

My family loves Minecraft, so I figured that I would make a dog tag out of the Minecraft dog's face!

There are 8 different small models (dog tag sized), all are around 1.3in by 1.5 in. 6 of the designs have cubed edges, while 2 of the models are rounded. You can write your pet's name (or other information) on the back using [the text tool in the slicer](#).

There are 2 different big models (keychain sized), these are around 2in by 3in. You could customize the back by using [the text tool in the slicer](#)!

I printed with 10% infill and no supports or bed adhesion for the model in the pictures.

Thank you! Hope you enjoy :)
