This is a simple Top Hat model for the "Cute Octopus Says Hello" thing (<http://www.thingiverse.com/thing:27053>) posted by Makerbot.

Instructions

Modeled in Tinkercad using the Cute Octo model to subtract so the hat fits on the Octo's head.

Printing

- I recommend printing the model upside down from how it's pictured here; brim side down.

Use a basic support material on the inside where the Octopus' head will rest, and everything external should print clean.
