### Summary

Markers to go on a 1/2" stake to mark various varieties of bananas.

[Household](#) > [Outdoor & Garden](#)

Tags: [marker](#) [garden](#) [banana](#)

Made these to mark the various varieties I have in my "plantation". Thought someone else out there might like them. Mounts on a 1/2" rod or dowel. Currently have tags for the following.

1. Dwarf Namwah
2. Sweetheart
3. Goldfinger
4. Basjoo Musa
5. Mekong Giant
6. Lacatan
7. Mysore
8. Blue Java

When printing, place face down.

I recommend the following print setting overrides:

1. Set elephant foot compensation to zero (Print Settings→Advanced).
2. Increase bridge flow ratio in the same menu to 2

3. Force bridging angle to 45 degrees (Print Settings→Infill)
4. Layer height = 0.2mm
5. Change color on layer 3 (first layer above 0.4mm)
