Summary

90 Degree Clip for routing wires or cables, prints without supports and is very solid.

[3D Printers](#) > [Accessories](#)

Remixed the clip from <https://www.thingiverse.com/thing:2613532> so that it prints without supports and a tight fit.

Enlarged it to about 20mm so that it fits more cables. Used it to route multiple wires into a front electronics box on an Ender 3 Pro that's still WIP.
