[mini13](#)

The final member of the Sinister Six, Green Goblin. Supports will be necessary for the hood and glider but the bag should print fine without.

This design is meant to replace most of the Mini 13 armor. On top of downloading my files, you will still need to download the [Mini 13](#) frame as well as [mini13-armor-foot-2x.stl](#)

I print everything with a layer height of 0.12 mm and a speed no faster than 50 mm/s. In my experience, printing any faster than that can cause the fit between parts to be too tight, sometimes to the point where they won't fit.

This remix is based on
