I made this for my son's 2021 Halloween costume. It's an easy print, print upside down with Supports for the eyes. You may have to slice it up and print it in two pieces.

This is set to fit a child's head, my son is 7 and it fits well. You will need to pad the inside top to get the eye holes to line up with the wearer's eyes.

How I Designed This

Made it in Shapr3D while watching my son play the game as my reference.
