I previously made the remix to hold my Headphones because I had nowhere to put them.

Same situation for my Jbl Clip 4 speaker. The only one I found when I made this was the one with the smiley face (I made this thing quite a while back) and I wanted to suspend it cuz it looks kinda nice for me.

This stand is made to be used with the table clam from the design this is remixed from.

I added 2 side hangers for cables because I didn't want them all over the place. I could have added more than 2 but I didn't think more cables were gonna arrive.

The top is also rounded, the original one for the headphones is flat up top.

There are also slots for $\varnothing 10 \times 2$ mm magnets.

Print Settings

Printer Brand:

Creality

Printer:

Ender 3 Pro

Rafts:

No

Supports:

Yes

Resolution:

0.2

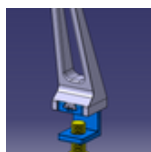

Infill:

20%

Filament: Creality and I don't remember the red PLA Red and white

Category: Audio

This remix is based on

Headphone Stand Clamped
