The tiny rubber feet that came on my Schiit Valhalla 2 headphone amplifier peeled off. I tried to reattach them with some rubber cement but they peeled off again. Got sick of this so made better feet with more surface area for better adhesion. Used 3M 9448A double-sided sticky tape.

Includes a 1.5mm recess for 3mm cork to aid in vibration dampening and anti-slipping.

Printed in Polymaker Charcoal Black PLA, 0.2 layer height.
