### Summary

Holder for balloons! Balloons holder for rode

[3D Printers](#) > [Accessories](#)

Tags: [rode](#) [holder](#) [balloons](#)

Blow the balloon, tie the knot, and slip it into a little hook. After you are done, slide on the rod.

Print it in ABS,PLA,PETG,ASA or whatever you want, I do add an extra fan on ASA around 50% to smooth a little bit in the heated chamber.

Layer height: 0.1 / 0.2 / 0.3

shell: 2 perimeters

Solid layer: top 2 / bottom 2

This is my old model made in 2018. Due expensive price tag, was 10 pieces for 10\$ and delivery over 1 month.
