Our budgie likes to keep an eye on me while I'm at work. Unfortunately, when he drops a visit, he also drops other things.

This perch sits on top of the monitor and has a tray to prevent bird droppings from falling in inconvenient places.

Because your monitor or your bird's anatomy may have different dimensions, the Freecad source file is included, sufficiently parameterized to adapt to most monitors and birds.

## Print Settings

### Printer Brand:

VoronDesign

### Printer:

Voron2 300

**Rafts:**

No

**Supports:**

Yes

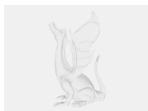

**Resolution:**

variable .1-.2

**Notes:**

Supports were used just to be sure. A printer/slicer that can handle long bridges should be able to print this without support.
