I needed a tool to disconnect the fuel line quick connect fittings on my Trailblazer. This one worked great and should work for any GM or other vehicle fuel lines. Designed for 5/16 (8mm) but worked on both size lines in my 2004 Trailblazer. One looks like it's 1/4 (or maybe 6mm) and the other is 5/16 (8mm) I printed it in ABS so it would be flexible enough to get over the line while remaining a one piece design. I hope you find it helpful.
