## Summary

2D Art cutout of one of my favorite pokemon, Scyther. Printable with or without a hole for hanging.

Scyther cut-out wall art / panel with or without an eyehole for hanging with a nail or thumbtack. Best printed with color switch. I printed mine in black and white to color with a green sharpie. Feel free to scale larger than the file but I wouldn't make it much smaller. The file with the hole will need to be scaled up slightly to better fit the way you hang it, but a thin nail or tack will work as is.
