A Remix of Asraff`s base model to make the lampshade look like a Destiny 2 Engram

The way that this is designed is to be screwed into place using the original fitting that came with the light fixture.

I used electrical tape to make it a snug fit while still allowing it to come out if needed.

Print instructions

Print 1 Adapter and 10 sides to have a open bottom light shade and 11 sides if you would like a closed shade

After printing use glue to stick the pieces together.

Fit the light shade and bulb **before** adding the bottom as you will not be able to access the light bulb after sticking it on

This remix is based on

Dodecahedron Light Shade Base Model

by Asraff
