### Summary

it's time for some more coasters, boasting a new design and way more logos.

[dataeastpinball](#)

This is a remix of my Bally, Williams and Gottlieb coasters i uploaded in october 2021 but with a slight redesign and with additional logos.

Originally there were Bally, Williams and Gottlieb but now there are 6 additional coasters.

Data-East: The DE pinball division operated from 1987 to 1994 and made many popular machines such as Star wars and Jurrassic Park.

Sega Pinball: After Data-East was bought out in 1994 by Sega they became Sega pinball, they operated until 1999.

Stern Pinball: Stern Electronics was originally founded in 1977 and operated until 1985, in 1999 Sega Pinball was bought out by Gary Stern

who ran Data East pinball and revived Stern Electronics as Stern Pinball, they are still in operation today.

Alvin G and Co: In 1991 the son of Gottliebs founder wanted to get back into pinball manufacturing, Gottlieb was owned by premier since 1984 so the founders son, Alvin Gottlieb Founded Alvin G and Co. they operated from 1991 to 1994.

Jersey Jack Pinball: JJP was founded in 2011 and 2 years later in 2013 they released their first machine, they are still in operation.

Hankin Pinball: An Australian company who produced pinball machines from 1978 to 1980.

Spooky Pinball: Spooky started out as a pinball podcast in 2010 however due to series of events and their introduction to Ben Heck, Spooky Pinball was founded in 2013 and have produced a number of limited release titles.

## How I Designed This

The coasters are designed in Fusion 360, the basic design is a simple 100mm circle with a brim.

In fusion 360 you can import .SVG drawings, PNG's can be converted to SVG's online and while this doesn't work well with most images Simple logos can be converted easily.

When a logo doesn't want to convert properly it must be touched up by hand, this can be done by sketching the missing parts by hand using the sketch tools in Fusion, very few logos required this.

## This remix is based on

Bally,  
Williams  
&  
Gottlieb  
Pinball  
Logo  
Coasters
