## Summary

This is a mount for a Splitty4 Fan Splitter.

[Gadgets](#) > [Computers](#)

This is a mount for a Splitty4 Fan Splitter. The splitter had raised solder posts on the back, so I made little rails for the card to sit on, posts between the rails. It's set to use 2 M3x10 screws, washers and bolts to secure it.

## Print instructions

I printed this in PLA at 15% infill.
