updated 9. 4. 2023 | published 9. 4. 2023

Summary

Rugged box and insert combined to hold the drone securely and protect it during transportation and storage.

Assembly needs M3x30 screws.

Let me know how you like it by adding a rating and a picture of your make! Also leave a comment if you have suggestions and I will look to incorporate.

Thank you Avalanche for the insert shape and Whity for the outer rugged box!
