Summary

Super strong quick release versatile GoPro Max 360 mount

[Sports & Outdoor](#) > [Outdoor Sports](#)

Have a couple of race mates (one thankfully with an EV and the other powered by dinosaur juice) that keep asking me to fly the drone and follow them whilst racing. There is a much easier way and that is with a 360 camera to get a similar shot. This is first pass attempt..... need to stiffen the pole a little to reduce the wobbles through the corners.

Totally indestructible to the limit of the GoPro mounts...

Added a horizontal unit which expands the variety of surfaces can mount on
