Summary

Quarter round shelf liner to keep built in stone shower shelves clean

[Household](#) > [Bathroom](#)

Tags: [shelf](#) [liner](#)

Made this simple quarter round shelf liner to keep the built in shelves in the shower clean from any drips from shampoo/conditioner bottles. Size is 215 mm and can be adjusted in slicer if your printer cannot fit it full size (I actually printer mine at 95% to be able to fit on my Ender 3 S1. I used gyroid infill at 15% but I do not think it matters. There is a very small lip around the entire perimeter to help keep any drip in.
