### Summary

A slim, rather minimalistic Wacom Pen holder for IKEA Skadis pegboards.

[Hobby & Makers](#) > [Tools](#)

A very slim, minimalistic holder for Wacom Pens, to attach them to an IKEA Skadis pegboard. A good solution if you want to waste minimal space and don't hook any other Wacom accessories.

Might interfere with thicker grips.

If you would rather utilize the original base, have a look at this: <https://www.printables.com/model/446688-wacom-pen-holder-for-ikea-skadis>

Print upside down, use support. Layer height doesn't matter, print as coarse or fine as you like :)
