updated 8. 4. 2023 | published 8. 4. 2023

Summary

It's a cap to prevent rain from filling the hollow fence stud. Diameter: 35mm, height: 26mm, thickness: 2mm

[Household](#) > [Outdoor & Garden](#)

Rotate it 180 in your slicer (hole up) to prevent supports.

I used 'make overhangs printable'.
