Summary

Nice Egg Cup for Easter

[Seasonal designs](#) > [Spring & Easter](#)

This is an egg cup for the Easter days.

The egg cup is connected to the feet and paws of the bunny.

A chicken egg fits perfect in the cup.

I designed the cup to a given bunny. So thanks for the bunny model to [openscan](#) and [bitsplusatoms](#).

I recommend to use more than 5 **top layers**, if you have an **infill** lower than 20% to be sure the top of the egg cup near to the paws is closed.

I printed it with 0.1 **layer hight**, but 0.2 should be also good.

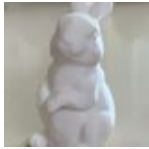

Support for the ears and paws is needed.
