Summary

Simple mount for Cabinet LED Light from Aliexpress to Ikea Metod Cabinet

[Household](#) > [Kitchen](#)

Tags: [ikea](#) [light](#) [cabinet](#) [metod](#)

I wanted some type of low-cost LED light for my Ikea kitchen cabinet. I bought LED light for cabinet hinges from Aliexpress but these type of light is not compactibile with Ikea hinges (Blum hinges).

These simple mount fits to original hole in Ikea Metod Cabinet. For attachment it is necessary to use "Euro style" screw. if you've assembled an Ikea kitchen yourself, you're sure to have plenty of these screws left over. Light is attached to the holder with cable tie.
