Summary

A remix of the OG Pocket Screwdriver, but for 4mm x 27mm Bits

This is a remix of <https://www.printables.com/model/271645-pocket-screwdriver-kit>.

Loved the original one, but had some 4mm bits (27mm long) lying around from an alixpress purchase, and wanted to have a screwdriver for those sort of bits.

Same printing as the original screwdriver, magnet used is a 4x2mm circular magnet.

Added a seperate file that is both the ring and main body combined, for those who do not want to glue the original parts together.

This remix is based on

Pocket Screwdriver Kit
